Please find below and/or attached an Office communication concerning this application or proceeding.
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

1) □ Responsive to communication(s) filed on ______.
2a) □ This action is FINAL.          2b) □ This action is non-final.
3) □ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

4) □ Claim(s) 1-65 is/are pending in the application.
   4a) Of the above claim(s) _____ is/are withdrawn from consideration.
5) □ Claim(s) _____ is/are allowed.
6) □ Claim(s) _____ is/are rejected.
7) □ Claim(s) _____ is/are objected to.
8) □ Claim(s) 1-65 are subject to restriction and/or election requirement.

Application Papers

9) □ The specification is objected to by the Examiner.
10) □ The drawing(s) filed on _____ is/are: a) □ accepted or b) □ objected to by the Examiner.

Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
11) □ The proposed drawing correction filed on _____ is: a) □ approved b) □ disapproved by the Examiner.

If approved, corrected drawings are required in reply to this Office action.
12) □ The oath or declaration is objected to by the Examiner.

Priority under 35 U.S.C. §§ 119 and 120

13) □ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
   a) □ All  b) □ Some  c) □ None of:
   1. □ Certified copies of the priority documents have been received.
   2. □ Certified copies of the priority documents have been received in Application No. _____.
   3. □ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.
   a) □ The translation of the foreign language provisional application has been received.
15) □ Acknowledgment is made of a claim for domestic priority under 35 U.S.C. §§ 120 and/or 121.

Attachment(s)

1) □ Notice of References Cited (PTO-892)  4) □ Interview Summary (PTO-413) Paper No(s). _____
3) □ Information Disclosure Statement(s) (PTO-1449) Paper No(s). _____  6) □ Other: ______
DEDIALED ACTION

Claims 1-65 are pending in this application.

This restriction requirement supercedes the office action requirement of Paper No.2.

_Election/Restrictions_

Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-53 drawn to products, variously classified in classes 540, 544, 546, 548 and several subclasses.

II. Claims 54-65, drawn to methods of use of compounds variously classified, in classes 514, 544, 546, 548 and several subclasses.

The inventions are distinct, each from the other because of the following reasons:

Invention Groups I and II are related as product and method of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different method of using the product (MPEP 806.05(h)). In the instant case, the product as claimed can be used in a materially different method of using the product as demonstrated throughout the specification and in claims 54-65 which are directed to several methods of using the product, for example treating epilepsy, asthma etc. Therefore a separate search considerations are involved, which would impose a burden if unrestricted.

The above groups themselves are inclusive of patentably distinct subject matter.

Accordingly, along with the election of one of the above groups, the following action is also taken.
Claim 1 is generic to a plurality of disclosed patentably distinct species comprising, for example, the compounds of (1) Example 6, page 64, Example 7, page 65, Example 51, page 98 etc., (2) the method of treating epilepsy using the compounds as in Example 1, (3) the method of treating asthma using the compounds as in Example 1 etc. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purpose as indicated is proper.

Upon the election of a single disclosed species (e.g. Example, page number and structural depiction), a generic concept, inclusive of the elected species, will be identified by the Examiner for examination. Moreover, whatever specific compound is ultimately elected, applicants are required to list all claims readable thereon.

In accordance with M.P.E.P. 821.04 and In re Ochiai, 71 F.3d 1565, 37 USPQ 1127 (Fed. Cir. 1995), rejoinder of product claims with method of use claims commensurate in scope with the allowed product claims will occur following a finding that the product claims are allowable. Until such time, a restriction between product claims and process is deemed proper. Additionally, in order to retain the right to rejoinder in accordance with the above policy,
Applicant is advised the process of use are amended during prosecution to maintain either
dependency on the product claims or to otherwise include limitations of the product claims.

**Failure to do so may result in a loss of the right to rejoinder.**

A telephone call was made to Evelyn D. Shen, on 03/20/02 to request an oral election to
the above restriction requirement, but did not result in an election being made.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the
inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the
currently named inventors is no longer an inventor of at least one claim remaining in the
application. Any amendment of inventorship must be accompanied by a petition under 37
CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the
examiner should be directed to Kamal A Saeed whose telephone number is (703) 308 4592. The
examiner can normally be reached on M-F 8:00 AM- 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner’s
supervisor, Joseph McKane can be reached on (703) 308 4537. The fax phone numbers for the
organization where this application or proceeding is assigned are (703) 308 7921 for regular
communications and (703) 308 7921 for After Final communications.
